2 Week Puppy Boot Camp/ Training Refresher

This is a two-week puppy boot camp or previous trainee refresher course.

The focus for puppy boot camp will be on leash come, sit, down, heel and introduction to the stay command. Socialization with other puppies and potty training. This is positive reward-based training. Recommended for puppies 4-6 months of age.

At the completion of puppy boot camp, we will send you home with a video of commands and recommend any training tools needed for success at home.

Two-week previous trainee refresher course is a two-week course offered to the owners whose life has gotten in the way of focusing on the dog. We will focus on getting the trainee back on track with daily training sessions.

Included: Room & board, daily exercise and personal one-on-one training.

Note: Required food, vaccinations, heartworm preventative and parasite control are at the owner's expense; any needed vet care is at the owner's expense including trip charges. We will require any puppy over the age of 7 months, and not in a breeding program, to be spayed or neutered before entering our training programs. Any poodle mix dog needs to be cut short before entering our programs. This includes, but not limited to, labradoodle, goldendoodle, aussiedoodle, berniedoodle, borderdoodle, etc.

Plan A: Basic Obedience

This is a 30-day in-kennel training program geared around AKC S.T.A.R. program. Once your pup has completed this he/she will not only be able to pass the AKC S.T.A.R. program test, but they will also understand the commands COME, SIT, STAY, BED, NO, HEELING on leash, crate training, etc. If your dog is starting at the Basic Obedience level, they will learn all the above commands on leash, which will enable them to smoothly transition to off leash commands in Advanced Obedience.

At the completion of the 30-day Basic Obedience Program, we will conduct a personal hands-on session with you and your dog to make sure you are comfortable with what the dog has learned. An at home follow up session can be scheduled after the recommended two-week transition period.

Included: Room & board, daily exercise and personal one-on-one training.

Plan B: Advanced Obedience

This is a 30-day in-kennel training program geared around the AKC Canine Good Citizen Program. Once your pup has completed this he/she will not only be able to pass the AKC Canine Good Citizen program test, but they will also understand the following commands both ON and OFF leash: COME, SIT,, STAY, BED, NO, HEELING on leash and off, crate training, etc. At this level of obedience, we offer e-collar training for those clients who would like complete control over their dogs. Our clients who complete this level of training say it is "life changing" for both the owner and the dog.

At the completion of the 30- day Intermediate Obedience Program, we will conduct a personal hands-on session with you and your dog to make sure you are comfortable with what the dog has learned. An at home follow up session can be scheduled after the recommend two-week transition period
